Purpose

Counties must ensure the rates which are paid to providers are the lower of the county ceiling rates and the published private pay rates of providers.

Policy

Prior to entering into a fiscal agreement with a provider, the provider must provide to the county the providers’ published private pay rates. The published private pay rates will be compared to the county ceiling rates and the lesser of the two will be used as the fiscal agreement pay rates.

The county will monitor the private pay rates of providers through random requests for rate sheets and Tier II audits.

Procedure

The Child Care Worker shall compare the provider’s private rates to the county ceiling rates and enter the lesser of the two into the provider’s fiscal agreement.
